# Timely Suggestions For Easter Preparations

Attend Our Suit Opening Tuesday

SILK shirt waist suits are having a popularity this spring that is without a precedent. Ladies are not slow to recognize the merits of such garments and manufacturers are working day and night to supply the demand.

At first the silk shirt waist suit was made rather plain, but each day they are adding more drapes, shirrings and more trimming until the newest ones are fussed and gathered into a beauty that at once wins the femenine heart, which always appreciates the beautiful. Tomorrow—Tuesday—we will show a decidedly pretty line of these very popular garments.

We were told early in the season, by those who ought to know, that the jacket suit would not be used. This prophecy failed. The jacket suit is too sensible a garment to be thrown aside and consequently fashion devotees are putting them on. Tomorrow's display will bring before you a very handsome line of these sensible suits in Panamas, Broadcloths mixed suitings and other sensible weaves.

We frankly admit that tomorrow will witness our best suit display before Easter. Make your selection then and remember that we will lay any garment aside for you upon the payment of 10 per cent. of the purchase price.

Company F, M. S. N. G., will disband. This is not new to many in Brainerd, but it is the first time the matter has been taken up by the powers that be at headquarters. Capt. Heffner resigned a long time ago and since then there has not been a drill. It was a long time before he heard a word about his resignation and no change has been authorized, but the following from the Pioneer Press would indicate that there is something doing:

"Company F, Third regiment, M. N. G., at Brainerd, is to be mustered out of the national guard within a few days, and a company will be organized in some other town to take its place. It is likely that Alexandria will furnish the new company. Adjt. Schoenville, Pa., April 10.—In a riot in which bricks, beer bottles, clubs and stones were freely used as weapons, three men were shot during the day, one fatally, and one woman was badly injured. The riot started over the arrest of Mrs. Agnes Sadna, a Polish woman, by fifteen detectives. Some 1,200 foreign residents surrounded the detectives and in the rioting which followed the prisoner was

The injured are: Harry Lukaschewski, shot through the stomach, will die; Edward Rider, assistant chief of police of McKee's Rock, hit on head with brick and seriously injured: Mrs. Sadna, badly bruised on the limbs; unknown man, badly injured.

The riot was the climax of a series of riots and fights which took place during the past two weeks. During the arrest of some coal pickers last Friday by Lake Erie railway detectives Mrs. Sadna interfered and caused a small riot. The detectives, four in number, were driven out of the town by a mob of Hungarians and

During the day the officials, knowing they would have a battle, went in force to arrest Mrs. Sadna. She was found on the street and with her four-year-old child in her arms attempted to fight the posse, calling to her countrymen for assistance.

The officers, after taking her into custody, were quickly surrounded by a large crowd of men and fierce strife ensued. Weapons of every description were put into play and the woman prisoner was immediately rescued. The officers then fired their revolvers into the air. TO SETTLE THE STRIKE.

Mayor Dunne of Chicago Will Endeavor to End Trouble by Arbitration.

Chicago. April 16.-A determined effort to settle by arbitration the strike of the garment workers and teamsters employed by Montgomery Ward & Co., is being made. Judge Edward F. Dunne, who will assume the office of mayor of Chicago during the day, stated Sunday night that one of his first official acts would be to endeavor to bring about an amicable adjustment of the difficulty.

Mayor-Elect Dunne's idea is to get both sides to the controversy together and appoint a committee to arbitrate the trouble.

While peace plans were being considered the local unions of the cxpress drivers throughout the city met and decided to refuse to handle any goods belonging to the firm of Montgomery Ward & Co. This means that the troubles of the big store will be doubled when they endeavor to transfer their goods to the different railway freight sheds in the city.

The employers, however, declare that they will have enough nonunion help on hand to take care of all the wagons that will be needed.

Burlington, Vt., April 10.-Twentyfive members of Troop B, Fifteenth United States cavalry, commanded by First Lieutenant George T. The fifty troopers left the post immediately after pay day on Thursday, and many disturbances in this city and Winooksi followed. A special guard was sent out and twenty-five of the men were arrested. The others had not yet been apprehended, and if they do not return within a few days they will be regarded as deserters. The men under arrest claim a grievance against Lieutenant Bowman and explain their recent absence on that score.

At the Dangerous End. After the collapse of the Confederacy

ex-Senator Wigfall, a member of the Confederate congress from Texas, fell in with a party of Union soldiers in that state. Being well disguised, he entered freely into conversation with the soldiers of the guard, in the course of which he asked what they would do with "old Wigfall" if they were to catch him. "We should hang him, sure," was the prompt reply. "Serve him right," exclaimed Wigfall. "If I were with you I'd be pulling at one end of the rope myself!"

"I believe the jurors have made up their minds in this matter," said Mr. Baker, after he had left the jury room. "They seemed to thoroughly understand the situation and we got along finely together. I was not asked if anybody had approached me or anything along that line, so I suppose they knew what I had been doing since I came to Chicago."

Schoenville, Pa., April 10.-In a riot in which bricks, beer bottles, clubs and stones were freely used as weapons, three men were shot during the day, one fatally, and one woman was badly injured. The riot started over the arrest of Mrs. Agnes Sadna, a Polish woman, by fifteen detectives. Some 1,200 foreign residents surrounded the detectives and in the rioting which followed the prisoner was

The injured are: Harry Lukaschewski, shot through the stomach, will die; Edward Rider, assistant chief of police of McKee's Rock, hit on head with brick and seriously injured; Mrs. Sadna, badly bruised on the limbs; unknown man, badly injured.

The officers, after taking her into custody, were quickly surrounded by a large crowd of men and fierce strife ensued. Weapons of every description were put into play and the woman prisoner was immediately rescued. The officers then fired their revolvers into the air. This severed to madden the foreigners and in a rush of more than 1,000 men, women and children the police and detectives were driven into a vacant lot where a stand was made. ## PASSES REVISED CODE

SENATE QUICKLY DISPOSES OF THE MEASURE, WHICH WILL GO TO CONFERENCE.

HOUSE ADOPTS THE MAJORITY REPORT OF THE PUBLIC AC-COUNTS COMMITTEE.

St. Paul, April 8.—The state senate passed H. F. 43, otherwise known as the revised code, at 1:40 Friday afternoon. The vote was 44 to 9, eight senators being amsent and two not

ference committee for adjustment of from 5 to 15 per cent gain over 1904, the 2,100 amendments adopted by the

The senate rushed proceedings. In the morning a motion was offered to over last year. Trade is slower than make the code a special order for was taken up for final passage, but an hour and a half was spent in discussed on the floor.

No effort was made to defer the operation of the code. It passed the senate as it passed the house, so as to become operative Dec. 1, 1905.

An amendment offered by Senator Horton was adopted. It restores a section of the old law providing that when railroads build branch lines the branches shall have the same charter rights as the original line. The amendments by Senator Morgan were adopted, restoring the old law with ing to the ground with a bullet in his regard to fees paid for certifying records to the supreme court.

Members of the judiciary committee claimed that after the adoption of their amendments the code was left practically the same as the existing law, the new legislation put in by the commission having been cut out and the old law substituted.

The prejudice against new legislation defeated other amendments offered in the afternoon. One by Senator McGowan permitted the use of saccharin in confectionery. One by Senator Thorpe divided counties into two classes with regard to fees paid to the clerk of courts.

There was no debate on the passage of the bill, and only one senator explained his vote. Senator Hawkins objected to the early date fixed for the measure to go into effect.

The senate put to sleep S. F. 67, by Senator Thompson, providing that cities might provide for municipal tems. The municipal corporations committee recommended the bill for indefinite postponement. Senator Peterson attempted to have the report rejected, but lost, 25 to 21.

ADOPTS MAJORITY REPORT.

House Acts Favorably on That of Public Accounts Committee.

The house Friday adopted the majority report of the public accounts committee on the state auditor's office. It was done without even one voice being lifted up in justification of the document. R. H. Jefferson of Bingham Lake made a strong and dignifled protest, to which no reply was made, and the members, by common consent, avoided a rollcall, so that no one took any individual responsibility. P. E. Dowling moved the adoption.

M. S. Carl immediately moved, as a substitute, the adoption of the minority report. R. H. Jefferson, another member of the minority, then took the floor and explained the position of those who signed the minority report, claiming that the majority report showed the law had not been followed in the collection of damages for trespass. Mr. Jefferson closed with the statement that he was opposed to any "whitewash" of any public officer in this state.

W. A. Nolan then moved that the substitute motion be laid on the table. This was carried without division, and the report was then adopted in the same manner, with no demand for a rollcall.

The action taken was the result of

a caucus held Thursday evening. Friends of the state board of control in the house sustained the report of the general legislation committee in recommending for indefinite postponement the Flower bill requiring publicity in building contracts. M. D. Flower of Ramsey, author of the bill. attempted to turn down the committee's report, but the house sustained the committee by 39 to 29.

Among the bills passed by the house

S. F. No. 505-By Judiciary Committee-To abolish the statute revision commission April 18, 1905, by repealing the law creating such commission.

## PASSES REVISED CODE

SENATE QUICKLY DISPOSES OF THE MEASURE, WHICH WILL GO TO CONFERENCE.

HOUSE ADOPTS THE MAJORITY REPORT OF THE PUBLIC AC-COUNTS COMMITTEE.

St. Paul, April 8.-The state senate passed H. F. 43, otherwise known as the revised code, at 1:40 Friday afternoon. The vote was 44 to 9, eight senators being amsent and two not

The measure will now go to a conference committee for adjustment of the 2,100 amendments adopted by the

The senate rushed proceedings. In the morning a motion was offered to make the code a special order for noon. This was carried, getting barely the forty-two votes necessary to suspend the rules. At noon the code was taken up for final passage, but an hour and a half was spent in discussing and voting on amendments offered on the floor.

No effort was made to defer the operation of the code. It passed the senate as it passed the house, so as to become operative Dec. 1, 1905.

An amendment offered by Senator Horton was adopted. It restores a section of the old law providing that when railroads build branch lines the branches shall have the same charter rights as the original line. The amendments by Senator Morgan were adopted, restoring the old law with ing to the ground with a bullet in his regard to fees paid for certifying records to the supreme court.

Members of the judiciary committee claimed that after the adoption of their amendments the code was left practically the same as the existing law, the new legislation put in by the commission having been cut out and the old law substituted.

The prejudice against new legislation defeated other amendments offered in the afternoon. One by Senator McGowan permitted the use of saccharin in confectionery. One by Senator Thorpe divided counties into two classes with regard to fees paid to the clerk of courts.

There was no debate on the passage of the bill, and only one senator explained his vote. Senator Hawkins objected to the early date fixed for the measure to go into effect.

The senate put to sleep S. F. 67, by Senator Thompson, providing that cities might provide for municipal ownership of local telephone tems. The municipal corporations committee recommended the bill for indefinite postponement. Senator Peterson attempted to have the report rejected, but lost, 25 to 21.

ADOPTS MAJORITY REPORT.

House Acts Favorably on That of Public Accounts Committee.

The house Friday adopted the majority report of the public accounts committee on the state auditor's office. It was done without even one voice being lifted up in justification of the document. R. H. Jefferson of Bingham Lake made a strong and dignified protest, to which no reply was made, and the members, by common consent, avoided a rollcall, so that no one took any individual responsibility.

P. E. Dowling moved the adoption. M. S. Carl immediately moved, as a substitute, the adoption of the minority report. R. H. Jefferson, another member of the minority, then took the floor and explained the position of those who signed the minority report, claiming that the majority report showed the law had not been followed in the collection of damages for trespass. Mr. Jefferson closed with the statement that he was opposed to any "whitewash" of any public officer in this state.

W. A. Nolan then moved that the substitute motion be laid on the table. This was carried without division, and the report was then adopted in the same manner, with no demand for a rollcall.

The action taken was the result of a caucus held Thursday evening.

Friends of the state board of control in the house sustained the report of the general legislation committee in recommending for indefinite postponement the Flower bill requiring publicity in building contracts. M. D. Flower of Ramsey, author of the bill, attempted to turn down the committee's report, but the house sustained the committee by 39 to 29.

The following regarding the matter is taken from the Pioneer Press:

Tom Marks, who will open a season of repertoire at the opera house tonight, is one of the successes of the American stage. No Irish comedian is so well known in the east and no entertainer in the repertoire business has so large a circle of friends and admirers. He is just completing a western tour and has captured every town in which he has played, Winnipeg, Grand Forks, Crookston and Fargo, on this circuit, all giving him bumper houses. From the notices he has received in the press throughout the west he appears to have established himself firmly as a favorite.

There are four of the Marks brothers in repertoire work and it is said that they have cleared up several hundred thousand dollars in the show business.

John Bishop died yesterday morning at the place where he has made his home on the East shore of Gull lake for lo these many years, and the dissolution was indeed a sad one. Pining over the fact that he was to leave the place that he had called his home for so long, having sold out his ranch a short time ago Going fast. Get in your to F. B. Lynch, the old gentleman finally decided that he could not stand it and yesterday morning took a quantity of strychnine and a short time afterward died in the arms of his youngest daugh-

For years he was a trader at Crow Wing, where he also had a hotel. John Bishop was among the first white men to explore this northern country and his experiences in the pioneer days with the hostile Indians and the encountering of a multitude of other obstacles would fill a large book. The advance of civilization in this state could be recorded in a minute and interesting detail by this old pioneer, and at times he would become reminiscent and the stories he told were interesting. He came to Crow Wing from Canada when he was 22 years of age and three years later he was marin Connection | ried and three daughters were born to Mr. and Mrs. Bishop, Mrs. Maggie Hill, of Brainerd, Mrs. Francis Burton, of Minneapolis, and Josepine Crossette, who kept house for her father at Gull lake up to the time of his death yester-BANE'S day morning. Mr. Bishop built a hotel which he conducted for about two years when he moved out to Gull lake where he has resided ever since, about thirty-three years.

In early days there was considerable traffic through this region and for all this time "Bishop's Place" has been a popular resort.
